

Frontend Developer (Angular.js)

Dharma Labs (www.dharmalabs.io) is a multi-disciplinary research and development team formed out of Dharma Life. We pioneer ways to achieve sustainable social change through cutting-edge technologies, large-scale data collection and innovative decision sciences. We engage with individuals, communities, organizations and governments to co-design and co-create innovative solutions for complex ecosystems. **Dharma Life** (www.dharmalife.in) is a pioneering, award-winning business that is driving sustainable economic growth in rural India by creating entrepreneurs and building a market for world class products that improve lives and livelihoods.

We work at the intersection of multiple disciplines

Access to Energy	Big Data Analysis	Design Thinking	Education
Health	Livelihoods	New Technology	Nutrition
Sanitation	Social Innovation	Social Research	System Design

We add value by

- Collecting and analyzing field data in order to quantify and trigger social change
- Leveraging multi-disciplinary technology and analytics to tackle social challenges
- Mastering innovation methodology to achieve scaled and systematic transformation
- Designing actionable interventions that address complex challenges at scale

Dharma Labs is looking for an experienced professional for the position of **Frontend Developer**, to build compelling rich internet applications to administer and monitor activities in rural India.

What's your responsibility?

- Collaborate with a multi-disciplinary development and research teams
- Building robust and secure web applications using modern frameworks
- Designing responsive user-friendly interfaces, visualizing data and reports
- Connecting the frontend with highly performant server-side web services
- Writing modular and test-driven code that is scalable, stable and secure

Desired Skills & Experience

- Expert in cutting-edge web development using JavaScript, HTML5 and CSS
- Proficient in utilizing top-notch frameworks such as AngularJS and Materials
- Good understanding of software architecture and human interaction design
- Experience in backend programming such as node.js or PHP is an advantage
- Comfortable working in a Linux and Microsoft environment

Your Personal Attributes

- 4+ years of professional experience in building rich internet applications
- Strong sense of ownership, urgency, and drive, and a track record of delivery
- Solid coding practices including unit testing, peer code reviews, and agile methods
- Sharp analytical abilities, proven design skills, excellent communication skills
- Passion for building new products in a fast paced, team-oriented environment
